## on Proposed Natural Resources Plan for the Wellington Region

Fold here

Clause 8 of Schedule 1, Resource Management Act 1991.

Please complete this form to make a further submission on the Proposed Natural Resources Plan for the Wellington Region (**PNRP**). All sections of this form need to be completed for the submission to be accepted.

A further submission may only be made by a person representing a relevant aspect of the public interest, or a person that has an interest in the PNRP greater than the interest that the general public has, or the Wellington Regional Council itself. A further submission must be limited to a matter in support of, or in opposition to, a submission made on the PNRP.

For information on making a further submission see the Ministry for the Environment website:

**C. FURTHER SUBMISSION POINTS**

Please complete the following table with details of which original submission points you support and/or oppose, and why, adding further rows as necessary.

<b>Details of the submission you are commenting on</b>  Name of person/ group making original submission and postal address.	<b>Original submission number</b>  The original submission number can be found on the submitter address list.	<b>Position</b>  Whether you support or oppose the submission.	<b>Part(s) of the submission you support or oppose</b>  Indicate which parts of the original submission (which submission points) you support or oppose, together with any relevant PNRP provisions.	<b>Reasons</b>  Why you support or oppose each submission point.	<b>Relief sought</b>  The part or whole of each submission point you wish to be allowed or disallowed.
<i>e.g.</i> Joanne Bloggs 12 Pine Tree Avenue Redwood	<i>e.g.</i> submitter S102	<i>e.g.</i> Oppose	<i>e.g.</i> Oppose all of submission point S102/41	<i>e.g.</i> The submission point does not recognise...	<i>e.g.</i> Disallow the parts of S102/41 relating to...
Forest Owner Marketing Services Ltd	S435	Support	Support all of submission point S435/002	The submission point reflects the concern raised in WELL's original submission – this being that the proposed definition for Erosion Prone Land in the NRP is inappropriate and more restrictive than the current Regional Soil Plan.	Allow submission point S435/002 in full.
Forest Owner Marketing Services Ltd	S435	Oppose	Oppose in-part submission point S435/006	The submitter refers to aligning the permitted earthworks rule with the proposed National Environmental Standard for Plantation Forestry (NESPT). It is considered inappropriate, and premature, to align the permitted activity rule with a <i>proposed</i> national policy document that is still within the consultation process.	Disallow the submission point S435/006 seeking to amend Rule R99 Earthworks so as to align with the NESPT.
NZ Deer Farmers' Association - Wairarapa Branch	S434	Support	Support in-part submission point S434/020	The submission point seeks to amend the 'Earthworks' definition so as to include new farm tracks as being exempt from the definition's coverage. WELL support this submission point to the extent that constructing appropriate and new access tracks should be explicitly included as exempt in the PNRP.	Allow submission point S434/020 so that the formation of new tracks is included in the list of activities excluded from the definition of Earthworks

Details of the submission you are commenting on	Original submission number	Position	Part(s) of the submission you support or oppose	Reasons	Relief sought
				WELL's support for the submission point extends only to new access track formation applicable to the defined 'Earthworks' exemptions.	
NZ Deer Farmers' Association - Wairarapa Branch	S434	Support	Support in-part submission S434/021	The submission point seeks to amend the Earthworks permitted activity rule so as to explicitly include farm tracks, and their maintenance. WELL support this submission point to the extent that constructing and maintaining access tracks should be clearly permitted in the NRP in some instances. WELL's support for the submission point extends only to new access track formation, and maintenance, applicable to the defined 'Earthworks' exemptions.	Allow submission point S434/021 so that the formation of new tracks is inferred in the list of activities excluded from the definition of 'Earthworks', and therefore is explicitly recognised as a permitted activity under Rule R99 of the proposed NRP.
