OHAOHA O TE WAI - ECONOMIC USES OF WATER

A reliable water supply provides for sustainable agricultural, cultural, domestic and commercial use.

OHAOHA O TE WAI - ECONOMIC USES OF WATER

11 Feb 2016

Water is used for economic benefits, including through commercial enterprise, farming, property values, protecting assets (public and private) and visitor experience, in a way that provides for sustainable and resilient use.

Water is used for economic benefits, including through commercial enterprise, farming, property values, protecting assets (public and private) in a way that provides for sustainable and resilient use.

Water is used sustainably, providing economic benefits and building the resilience of the community

Water provides for economic opportunities and benefits including building infrastructure and resilience.

The use of water and waterways provides for economic opportunities and benefits, including building infrastructure, and community resilience to water shortage and hazards such as flooding and climate change.

Water and waterways provide economic opportunities and benefits. Water infrastructure and networks are necessary for community resilience by ensuring security of supply and effective disposal.

Water and waterways are used to derive direct economic benefits (e.g. stock) and indirect benefits to business and people (e.g. disposal of waste, infrastructure provision).

A reliable water supply provides opportunities for sustainable agricultural production, cultural, domestic and commercial use.

11 Aug 2016

A reliable water supply provides for sustainable agricultural, cultural, domestic and commercial use.

OHAOHA O TE WAI - ECONOMIC USES OF WATER

The use of water and waterways provides for economic opportunities and benefits, including building infrastructure, sustainable agricultural and commercial use.

YOU'VE SPOKEN, WE'VE HEARD

Churton Park – Waitangirua – Whitby – Pukerua Bay – Titahi Bay
...and everywhere in between

together we value...

Kai kete

The harbour, streams and coast can be used to gather and catch kaimoana and mahinga kai for food

Hauora kaiao

The harbour, streams and coast are clean and brimming with life and have diverse and healthy ecosystems

Ka taea e te tangata

The harbour, streams and coast are safe and accessible for people to enjoy and undertake recreational activities

Te ara wairua o te wai

The harbour, streams and coast flow naturally and with energy, attracting people to connect with them

Whanaketanga tauwhiro o te whenua

Land is developed, used and managed sustainably, recognising its effect on water quality and quantity

Ohaoha o te wai

Text to be confirmed

Ko Te Awarua-o-Porirua he taonga tuku iho a Ngāti Toa Rangatira

Te Awarua-o-Porirua is an ancestral treasure of Ngāti Toa Rangatira.
