Your submission

The specific provisions of the Proposed Natural Resources Plan that this submission relates to are:

The specific provision of the Proposed Natural Resources Plan that my submission relates to is (please specify the provision/ section number): 18.1	My submission on this provision is: →	<input type="checkbox"/> I support the provision <input type="checkbox"/> I oppose the provision <input checked="" type="checkbox"/> I wish to have the specific provision amended
	Reasons for my submission: →	Our club currently has moorings for casual use that are outside of the designated mooring areas. These are not intended to be for the permanent mooring of vessels but are for casual use by Club members, and also allow a safe place to wait for tide or weather conditions on the Mana bar to improve before attempting a crossing. This makes them an important safety measure for our area. These moorings have been in use for many years. These moorings are constructed to a standard that would make them suitable for a vessel in trouble to use as a point of safety, either by themselves or if placed there by emergency services. Public notification to renew our consents for these moorings would

		significantly stretch our financial resources and we would have to question whether we could afford to keep them in place. This would not be good from a safety perspective in our area.
	I seek the following decision from WRC (give precise details): →	We ask that the Public Notification requirement is removed from section 181 The decision as to whether it should be publically notified or not should be assessed on a case by case basis.
