

Submitter Details

Submitter No.	S80
Submitter Name	Anders Crofoot
Date received	14/10/2022

Notes

Number of uploaded docs 0

Submission Points

The following table lists all of the submission points made by this submitter. The details of each submission point can be edited by clicking the 'edit' link, editing the information and then clicking 'submit'.

If you can't find the provision by typing the number, try typing a word in the body of the provision. For example, typing 'polic' will bring up all provisions that have the word 'policy' in their name.

If you need to void (delete) a submission point, click the 'edit' link and change the 'Status' field to 'Void'. Once the 'submit' button has been clicked, the submission point will be removed from the table and any reports.

Reporting Topic	Submission Point	Plan section	Provision	Support/Oppose	Reasons	Decision Requested	Mapping	Scope	Scope recom

Raw uploaded submission points

This table contains raw submission point data that has been uploaded from the Council's online submission form. These submission points need to be transferred into Spoken by adding them as submission points using the 'Add submission point' form below or clicking on 'upload directly'. Once the raw uploaded submission has been added into Spoken, please confirm by selecting 'yes' in the 'uploaded into Spoken' field. Submission points that have not been 'lodged' are able to be edited by the submitter until either they have finalised and lodged their submission or after the submission closing date, so consider not summarising those points early.

Raw sub point	Plan section	Provision	Support/oppose	Decision sought	Reasons	Entered into Spoken	Upload directly
S80.1	Chapter 3: Resource management issues, objectives and summary of policies and methods to achieve the objectives in the Regional Policy Statement	General comments - Chapter 3	Oppose	Delete ammendments	With full review of the RPS scheduled for 2024 and and various NPS forthcoming between now and then. I feel it would be better to address changes in light of NPS rather than trying to preempt them. It would also be better to review policies and objectives at the same time.	No	upload...
S80.2	Chapter 3.1A: Climate change	General comments - climate change	Oppose	Delete all amendments to the chapter including text and Issues 1-4	The proposed amendments to not appear to reflect national policies such as a split gas approach. The is much activity in the climate change space on a national level and it would be better to defer changes to the RPS until it can be viewed in its entirety in 2024.	No	upload...
S80.3	Chapter 3.3: Energy, infrastructure and waste	General comments - energy, infrastructure and waste	Oppose	The proposed amendments including text and Table 3 be deleted	These issues would be better reviewed in their entirety in the 2024 RPS review.	No	upload...

S80.4	Chapter 3.4: Fresh water (including public access)	General comments - fresh water	Oppose	Delete all the proposed amendments including text, objective 12 and table 4.	These issues would be better reviewed in their entirety in the 2024 RPS review.	No	upload...
S80.5	Chapter 3.6: Indigenous ecosystems	General comments - indigenous ecosystems	Oppose	Delete all the proposed amendments including text, issues, objectives and table.	These issues would be better reviewed in their entirety in the 2024 RPS review when they could be more properly informed by the upcoming NPS for Indigenous Biodiversity.	No	upload...
S80.6	General comments	General comments - overall	Support	I wish to support the submission of Wairarapa Federated Farmers.	The Wairarapa Federated Farmers submission goes into much greater detail than my submission and I am in broad agreement with it.	No	upload...
