

Submission relating to:
Proposed Plan Change 1

Megan Persico

persico@xtra.co.nz

I would not gain an advantage in trade competition through this submission.

I do not wish to be heard.

I am opposed to the proposed Plan Change 1, affecting my land and seek the following relief.

Small farm registration – farms of 4 hectares or more: anything under 20 hectares is a hobby.
Livestock welfare falls under MPI for welfare ie: all large animal/farm livestock not GWRC

Relief: Small farm registration should be 20 hectares or more.

The prohibition of green field developments fails to consider the merits of each individually. There is the emergence of decentralisation wastewater infrastructure that is likely to accelerate, reducing the potential environment impact from new subdivisions. GWRC should be considering greenfield developments individually on the merits and the impacts each has on the environment and the mitigants proposed.

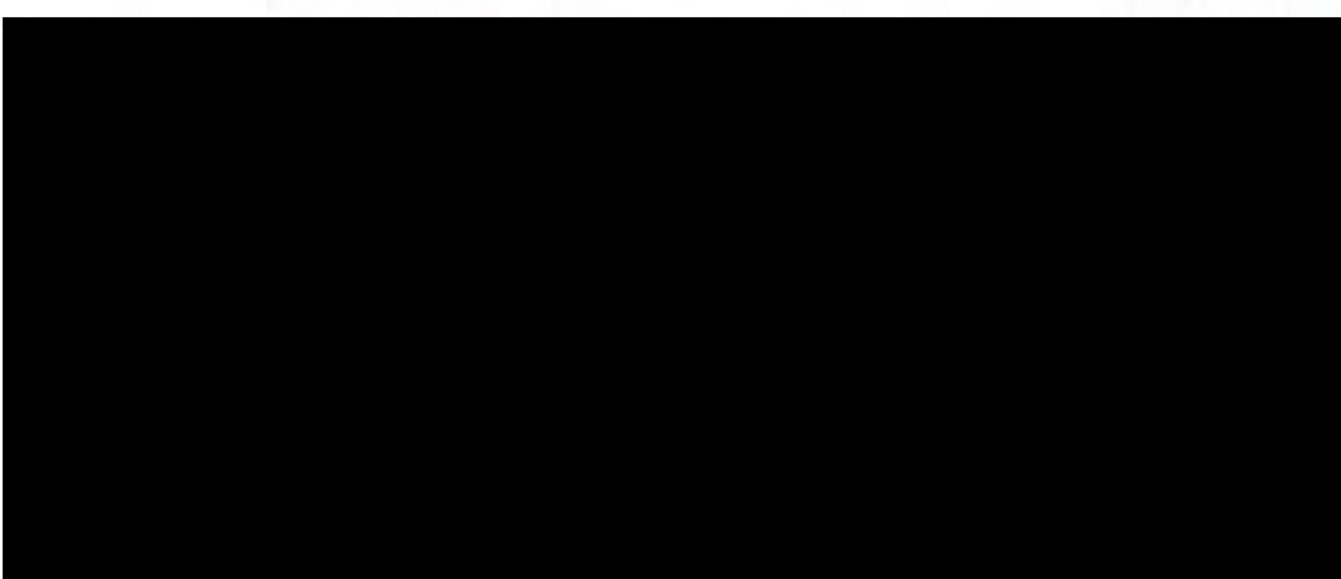

In addition, objection is strongly expressed that this be reviewed and amended to appropriately reflect the outcome of Plan Change 50 UHCC that was notified prior to PC1

Relief: Amend PC1 to allow application for new unplanned greenfield developments.

PC1 should be put on hold as the new government is planning to repeal the National Policy for Fresh Water management.

I agree with the "Maymorn Collective" submission in all aspects and to be considered as part of my own submission.
